DEAR MONEY TO CONTINUE.

LONDON, Nov. 28.

Sir Felix Schuster, in his presidential address to the Institute of Bankers, said he did not expect low rates of money for some little time. He referred to indications of coming restriction of trade all over the world, and considered that the development of trade had been somewhat too rapidly, outstripping available capital. He especially said this in the case with railway and electrical undertakings.

CHOOSING THE AUSTRALIAN.

K. CRISPAN SEPTIMUS.

MELBOURNE, Thursday.

Let it be at the outset admitted that it is early to pick a team to represent Australia in the test match to begin in Sydney on December 1st. There are yet four months to be played before the final selection is made—Victoria v. South Australia, England v. Queensland, New South Wales v. South Australia, and England v. an eleven of Australia. Had we the performances of these matches before us, there would be no doubt as to the best players to choose. But the absolute eleven that there is without them.

There will be a chance for men now out of form to play a couple of good matches, and get back into the team. But the absolute eleven that there is without them.
